

Our Cosmos: News from the oldest light.

Torsten Ensslin (MPA Garching)

Tuesday, 13 October 2015, 16:45 h, DESY Auditorium

The Planck Mission has surveyed the cosmic microwave background and foreground with unprecedented precision in total intensity and polarization at nine frequencies. In this talk the mission and its cosmological results so far will be presented with an emphasis on Early Universe information.

- **Coffee, tea and cookies will be served at 16:30h**
- **After the seminar there is a chance for private discussions with the speaker over wine and pretzels**
