

Rosetta, the craziest mission ever!

Alessandro Ercolani (ESA Darmstadt)

Tuesday, 23 February 2016, 16:45 h, DESY Auditorium

Rosetta is a spacecraft launched by the European Space Agency (ESA) into an incredible mission to chase a comet. With images, videos and animations the presentation will give a glimpse on a fantastic 10 years and 7 billions Km journey across the solar system. The breathtaking moments of the exit from hibernation, rendezvous with the comet and descent of the lander Philae down to the comet's surface will be told from the perspective of a team member, who lived those moments from the "inside".

- **Coffee, tea and cookies will be served at 16:30h**
- **After the seminar there is a chance for private discussions with the speaker over wine and pretzels**
