

DESY Seminar

Tuesday, 07.10.2008, 17h

DESY Hörsaal

Status of the CMS Experiment

Wolfram Zeuner
(DESY)

After almost 20 years of design, construction, assembly and preparations, the Compact Muon Solenoid, CMS, started data taking with LHC beams in Sept 2008. The main design features of the detector, the construction and assembly will be reviewed. The commissioning and preparation for beam and first physics will be discussed and next steps will be described.

- Tea and cookies will be served at 16.45h in the lobby
- After the seminar there is a chance for private discussions with the speaker over wine and pretzels
