

A photograph of a woman with short brown hair and glasses, wearing a light-colored sweater and a necklace, sitting in a server room. She is looking down at a device in her hands. The background is filled with server racks and a dense network of blue cables. The entire image has a blue color cast.

BEATE NAROSKA

GUEST PROFESSORSHIP

Foto: Bayerische Staatsbibliothek München/STERN-Fotoarchiv/Jay Ullal

BEATE NAROSKA (1943–2008)

WAS A PROFESSOR IN EXPERIMENTAL PARTICLE PHYSICS AT THE UNIVERSITÄT HAMBURG. SHE WAS AN EXCELLENT SCIENTIST, A VERY DEVOTED TEACHER AND A MENTOR OF MANY YOUNG SCIENTISTS.

THE GUEST PROFESSORSHIP PROGRAMME OF THE CLUSTER OF EXCELLENCE QUANTUM UNIVERSE HAS BEEN ESTABLISHED IN HER HONOUR.

BEATE NAROSKA GUEST PROFESSORSHIP AWARD CEREMONY

with Prof. Dr. Mariana Graña and Dr. Jennifer Schober

23 April 2024, 4:00–6:00 pm at DESY auditorium

The Cluster of Excellence Quantum Universe is pleased to invite you to the Award Ceremony for the Beate Naroska Guest Professorships 2023.

Theoretical Particle Physicist Prof. Dr. Mariana Graña (IPhT CEA/CNRS, Paris-Saclay) and Theoretical Astrophysicist Dr. Jennifer Schober (LASTRO, École Polytechnique Fédérale de Lausanne) are honoured for their outstanding research as well as for their active involvement in advancing equal opportunities for women in physics.

If you cannot attend in person, please join online!
