

Recent Results from Searches for Supersymmetry with CMS.

Isabell Melzer-Pellmann (DESY)

Tuesday, 26 June 2012, 16:45 h
DESY Auditorium

The CMS experiment at the Large Hadron Collider had a very successful running in 2011, when about 5 fb⁻¹ of data have been taken and analyzed. The search for physics beyond the Standard Model is one of the main physics topics, with special emphasis on Supersymmetry. A few representative searches for Supersymmetry will be discussed.

- Coffee, tea and cookies will be served at 16.30h
- After the seminar there is a chance for private discussions with the speaker over wine and pretzels
