

# LHC Forum: Higgs and SUSY Highlights from the Moriond Conference.

**Marcos Jimenez Belenguer (DESY)**  
**Christian Sander (Hamburg University)**

**Tuesday, 19 March 2013, 16:45 h**  
**Auditorium**

The 2013 Moriond conferences took place during 2-16 March. For the Large Hadron Collider experiments, they were naturally the first major occasion to present their brand-new results obtained with the full data sample from the 2012 run at 8 TeV centre-of-mass energy, constituting an unprecedented experimental reach at the high energy frontier. This LHC forum reviews fresh highlights from the multi-purpose experiments ATLAS and CMS in the fields of Higgs and Supersymmetry.

- **Coffee, tea and cookies will be served at 16:30h**
- **After the seminar there is a chance for private discussions with the speaker over wine and pretzels**
